

Play date BINGO

From the next two pages you will find a list of games people play together or alone. Print as many pages of the pages you need for the players. Mix all the cut out pieces and place in a small envelope or container. Sit in a circle and pass the envelope around to each player. A player takes out a piece and places it in his empty square if it is a game two or more people can play together. You can either play full house, which means a player can only call out “BINGO!” when they have filled in all the squares or you can do 5 in a row.
